

K-CHEM 2000 SAFETY SOLVENT

This product is the next generation solvent degreaser for industrial and electronics maintenance. The advanced chemistry combines the best performance attributes of chlorinated solvents with the low individual/environmental impact requirements of the modern industrial workplace. The nonchlorinated formula contains no known or suspected carcinogens, ozone depleters or materials subject to regulation under California PROP 65, SARFA 313, NESHAP, HAP or RCRA yet it remains more than a functional performer for industry. The unique formula provides powerful degreasing action and fast evaporation while remaining nonflammable and nonconductive. In addition, the product is safe for short-term contact (normal aerosol spray use) on a wide variety of plastics including HDPE, LDPPE, polypropylene, phenolics, polyester, nylon, neoprene, natural rubber, and more. The low odor formulation leaves no residue and is compatible with many metals including most types of steel, galvanized steel, brass, copper, magnesium, nickel, tin plate, titanium, zinc, and passes MIL-T-81533A corrosion and oxidation protocols for each. In addition, this product is an excellent contact and circuit board cleaner for removing deposits such as flux and ionic residues after soldering and meets MIL-C-28809, MIL-STD-2000, and NASA NHB 5300.4 (3A-7) for ionic contamination control. For maximum flexibility, this product features a special dual action valve system which enables both a misting spray for broad area degreasing and a blasting spray for hard to reach areas and extra deposit removal power.

DIRECTIONS:

Remove cap and point actuator toward surface to be cleaned.

MIST SPRAY: Place finger on top of actuator and press down to mist broad surfaces to be cleaned. Saturate to desired level.

BLAST SPRAY: Place finger behind actuator and push forward for blast/stream spray into nooks and crannies or for extra power on stubborn deposits on any area.

Allow solvent to remain in contact for 30 seconds to one minute and then wipe or air dry. Repeat as necessary to achieve desired results. Extra heavy deposits may require brushing. **NOTE:** This product is nonflammable and nonconductive and therefore can be used while equipment is operating.

ATTENTION: This product is safe for use on a wide variety of plastics including most used in contact and circuit board construction. However, it may affect certain types of plastics such as PVC, ABS, styrenes, polycarbonates and more. If unsure of material construction or compatibility, always test in an inconspicuous area prior to use.

WARNING:

Contains 1-Bromopropane. Eye and skin irritant. Avoid contact with skin and eyes. If eye contact occurs, flush with water for 15 minutes. If irritation persists, consult a physician. If skin contact occurs, remove contaminated clothing. Wash with soap and warm water. If irritation persists, consult a physician. Vapor may be harmful. May irritate respiratory tract. Use with adequate ventilation. Avoid prolonged or repeated breathing of vapors. If overcome by fumes, remove victim to fresh air. Resuscitate if necessary. Get medical attention. Avoid contamination of food. Contents under pressure. Do not puncture or incinerate container. Do not expose to heat or store at temperatures above 120°F. **KEEP OUT OF REACH OF CHILDREN.**

CAS NUMBERS: 1-Bromopropane 106-94-5; Carbon Dioxide 124-38-9; Isopropyl Alcohol 67-63-0; Methyl Nonalluoroisobutyl Ether/Methyl Nonalluoroethyl Ether Blend 163702-08-7/163702-07-6; 1,1,1,2,3,4,4,5,5-Decafluoropentane 138495-42-8.

Equivalent to 8.76 Fluid Ounces

K-CHEM 2000 SAFETY SOLVENT

- Advanced Technology Cleaner/Degreaser
- High Solvency, Fast Drying, Leaves No Residue
- Low Odor, Non-ozone Depleting, Nonchlorinated
- Safe on Many Plastics
- Nonflammable and Nonconductive to 18,000 Volts
- Meets MIL-T-81533A, MIL-C-28809, MIL-STD-2000, NASA NHB 5300.4(3A-7)
- Dual Action Spray — Mist/Blast

WARNING: EYE AND SKIN IRRITANT • VAPOR MAY BE HARMFUL

Keep Out Of Reach Of Children
CONTENTS UNDER PRESSURE.

SEE OTHER CAUTIONS ON BACK PANEL.

NET WT. 12 oz. (340g)
