

DESCRIPTION

A highly concentrated blend of detergents, emulsifiers and wetting agents have been formulated to meet the maintenance requirements of modern automobile coatings. This product is tough enough to remove stubborn dirt, oil, grease, stains and spots but mild enough so as not to harm expensive painted coatings.

This product can be applied manually or with automatic car wash equipment or pressure washers. Be sure to follow all label directions when using.

CAUTION

Keep out of reach of children.

Do not get into eyes. In case of contact, flush with plenty of water. If irritation persists, get medical attention. Do not take internally. Avoid contamination of foods.

For industrial use only.

K-Chem Truck Wash Concentrate (Biodegradable)

DIRECTIONS

Never wash any vehicle in direct sunlight. Never wash any vehicle that is still hot from driving. If car is hot, cool by rinsing with cold water before washing. When hand-washing, use a soft, non-abrasive, clean cloth. Rinse cloth repeatedly during the application to remove built-up debris. Never allow detergent to dry on the vehicle and always rinse thoroughly.

DILUTIONS

Use 2 to 6 ounces of concentrate in a regular car wash pail, depending on condition of car. **Never use a bucket contaminated with harsh chemicals.** Wash car, starting at bottom and working upward. Rinse with hose, flooding freely with water.

Automatic Operations: Follow machine directions to the desired foam height and cleaning power.

Pressure Washing: Use a 40 to 60 to one dilution ratio.
