

K-Chem Rubberized Coating

- Provides a Flexible, Water-Tight Film
 - Reduces Unwanted Sound and Vibration
 - Fills In Minor Cracks and Voids
- Provides a super-thick, black, durable and flexible rubberized film. Reduces unwanted sound and vibration. Effective on metals, wood, roofing materials, tin, concrete, and more. Stays pliable in winter cold, will not sag, melt or drip in the summer heat. Resists cracking, peeling, and abrasion. Easy to apply and reduces clean-up.
