K-Chem, Inc. **TECHNICAL DATA SHEET**

Battery Terminal Cleaner & Protector

DESCRIPTION:

Neutralizing cleaner with an acid-alkali indicator. Removes corrosive build-up on battery terminal posts, cables, and clamps. Helps increase power output and extend battery life. Leaves a short-term residual protective film on cleaned surfaces.

FEATURES:

- Provides Acid-Alkali Indicator
- Helps Prevent Corrosion
- Neutralizes Acid
- Reduces Current Leakage Caused by Dirt and Corrosion Deposits
- Non-Flammable
- Level-1 Storage Rating

SUITABLE FOR:

• Boats • Buses • Taxis • Aircraft • Boats • Golf Carts • Tractors • Trailers • Postal Vehicles • Fork Lifts • Battery Backup Systems • Construction, Agricultural & Marine Equipment • Municipalities • Truck Lines • School Bus Yards • Marinas • Fleet Operators • Golf Courses • Vehicle Rental Companies • Auto Repair Shops
